Total Estimated Cost

\$7,300

Disclaimer: The hours and costs listed above are estimates for marketing and informational purposes only. Actual training time and total cost may vary depending on the student's proficiency, progress, and specific training needs. Additional hours may be required to ensure full readiness for the checkride. Spin training and simulator time are optional and can be added at additional cost. The program includes a commitment to 6 days of group ground school. One-on-one ground and flight training are scheduled based on instructor availability and student flexibility, and may be done on a full-time or part-time basis as discussed with the instructor.
